Scrum (software development) - Wikipedia

[https://en.wikipedia.org/wiki/Scrum_\(development\)](https://en.wikipedia.org/wiki/Scrum_(development))

Scrum is an iterative and incremental agile software development framework for managing product development. It defines "a flexible, holistic product development strategy where a development team works as a unit to reach a common goal", challenges assumptions of the "traditional, sequential approach" to product development, and enables tã
