### Supersaturated solution

Supersaturation is a state of a **solution** that contains more of the dissolved material than could be dissolved by the solvent under normal circumstances. It can also refer to a vapor of a compound that has a higher (partial) pressure than the vapor pressure of that compound.

### Definition of supersaturated solution - Chemistry Dictionary

Chemistry-dictionary · definition · supersaturated+solution.php  
Definition of supersaturated solution. 1) A solution that contains a higher than saturation concentration of solute; ... Was this definition helpful?

### Supersaturated solution - definition of supersaturated ...

Thefreedictionary · Supersaturated+solution  
A solution which contains a higher concentration of solute than does a saturated solution at that temperature. A supersaturated solution is metastable. Want to ...

### Supersaturated | Define Supersaturated at Dictionary.com

Dictionary · browse · supersaturated  
Supersaturated definition, to increase the concentration of (a solution) beyond saturation; saturate abnormally. See more.

### Supersaturation - Wikipedia

Wikipedia · wiki · Supersaturation  
Supersaturation is a state of a solution that contains more of the dissolved material than could be dissolved by the solvent under normal circumstances.

### Supersaturation

State

Supersaturation is a state of a solution that contains more of the dissolved material than could be dissolved.
